

HOW TO SEARCH DESTINY DISCOVER BY LEXILE

Click the plus sign next to the right of the search bar in Destiny Discover.

You will then see the Search Options box.

Choose "Lexile" under the reading program area.

If you know Lexile, type it in under "My Lexile Measure" and Destiny will fill in the Lexile range.

A screenshot of the "Search Options" box. The box has a title bar "Search Options" with a close button (x). Below the title bar are several sections:

- Type**: Keyword
- Format**: Any
- Sublocation**: Unlimited
- Reading Programs**: Lexile
- My Lexile Measure**: Starting Lexile Measure 750, Ending Lexile Measure 900

At the bottom of the box are three buttons: "Clear All", "Set Options", and "Search".

If don't know the student's specific Lexile or are just looking for a range, type it in under the Starting Lexile Measure and Ending Lexile Measure.

Then click "Set Options." The next search you do will bring up books only within the Lexile range. If you don't put anything in the search box, it will bring up all books within the range with a specific subject/author/title.

****MAKE SURE YOU OPEN UP THE SEARCH OPTIONS BOX AGAIN AND CLICK "CLEAR ALL" SO DESTINY WILL SEARCH ALL BOOKS AT ALL RANGES.****
